Dear Mr. G racitano:

I am writing in support of your application to seek "Public Interest" status under the provisions of the *Broadcasting Act* for All Points Bulletin TV and Avis de Recherche TV.

Criminal activity affects us all directly or indirectly. Police agencies across the country have recognized that in order to be truly effective in combating criminal activity they must work with the public. Whether they accomplish this through programs such as Crime Stoppers and Amber Alert or by sharing information through community based initiatives, web sites or the media, the public has become an important part of modern day policing.

I am of the belief that a television service dedicated to public safety would only enhance public information sharing and could only contribute to moving toward a safer society for all.

With this in mind, I am hopeful the CRTC strongly considers your application.

Yours truly,
