Dear Mr. Traversy:

RE: Article 7 of CRTC 2013-19, 2012-1051-7 and 2012-0689-7

As Mayor of Calgary, I am pleased to write this letter of support for the above mentioned application by Avis de Recherche TV/All Points Bulletin to produce and broadcast "safety & Prevention" messages with all public security organizations across the country to serve the "Public Interest."

Technology is a necessity in today's modern police forces and Avis de Recherche TV/All Points Bulletin would give our protective services great ability to prevent and fight crime. This application would allow security forces across the country to be more cohesive in their information sharing to allow a greater transparency as well as provide a common ground in which to enact on their information.

I endorse this proposal and believe that it is in the public good and in the public interest to have such access to vital information that would be provided by Avis de Recherche TV/All Points Bulletin.

Sincerely,

Naheed K. Nenshi
MAYOR
