Dear Sir,

George Manoli Inc. is 100% behind the demand that 'APB' is making to the CRTC in order to obtain the recognition of a 'Public Interest' service station.

My company, which specializes in personal safety education via workshops and courses, has had the honor and pleasure of working with 'APB' (Avis de Recherche) over the past seven years. The work produced by APB is professional, informative and certainly an asset to the community.

They present an array of information (capsules, bulletins, documentaries, etc.) pertaining to police work and emergency response teams, crime prevention, missing persons, personal safety issues, just to name a few.

I am very surprised that their television format and the essential informative services they provide to the Quebec population have not yet spread throughout Canada the United States and other parts of the world.

It is without hesitation that I highly recommend that you grant 'APB' the status of a 'Public Interest' television network. If you have any questions do not hesitate to contact me at your earliest convenience.

Respectfully,

George Manoli
